RE: B662 and B551 Change from Type 2 to Type 1

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division) has reviewed your letter dated March 11, 2002 requesting Buildings 662 and 551 be changed from their current status as Type 2 Facilities to Type 1 Facilities. Upon reviewing the information provided, the Division hereby concurs with this change with the following comments:

- 1) The information provided indicates that the elevated radiological readings on the exterior building surfaces are not due to the presence of DOE added contamination as previously indicated. As such, B551 can be re-designated as a Type 1 Facility. However, as indicated in your letter, only the above slab portion of B662 is to be re-designated as a Type 1 Facility, with the B662 slab continuing to be identified as a potentially contaminated Type 2 structure.
- 2) Since both facilities have been utilized after the initial RLC was performed, and as indicated in your letter, PDSs will be performed prior to starting demolition to show that these facilities have not been contaminated.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
